

Fluctuations in mid-tier GPU prices

- GIGABYTE
- ASUS
- Nvidia
- ASRock
- MSI

(B) cryptocurrency boom. GPU prices heavily inflated

New infrastructure developed which allowed cheaper manufacturing.

Introduction of new Chinese competition

Company secrets leaked from GIGABYTE and ASUS. Lowered prices to match competition

Mid-tier GPU prices have been extremely competitive as of late and without careful consideration of the pricing of our new model, we may not profit as much as we initially anticipated.
